

## Purchasing Spanish Curriculum

Before you order the 2005 *Born to Learn*<sup>®</sup> Curriculum Prenatal to 3 Years in Spanish, consider the following:

1. The *Born to Learn*<sup>®</sup> Curriculum Prenatal to 3 Years consists of Module A, B, C and a bilingual (English/Spanish) DVD. The entire curriculum has been translated into Spanish. There is also a CD of Spanish parent handouts available for purchase.

Spanish-speaking families can be served by either purchasing the *Born to Learn*<sup>®</sup> Curriculum in Spanish OR buying the English curriculum and the Spanish parent handouts.

2. How your staff plans to use the curriculum will affect your purchase.
  - When preparing for visits, will your staff benefit from having the Visit Plans and Parent Educator Resources in Spanish or English?
  - When visiting families, will your staff use Parent Handouts and Videos in Spanish only?
3. The *Born to Learn*<sup>®</sup> Institute Prenatal to 3 Years will be presented in English.
  - Some bilingual speakers are more successful referring to a Spanish curriculum for reading assignments.
  - Others struggle with hearing the presentation of information in English and reading the Spanish curriculum.
